**Subject:** RE: High electric bills

Dear Ms. Tyminski,

This is to acknowledge receipt of your emails to the Public Service Commission of South Carolina. I am forwarding your emails to our Clerk's Office for processing. Your emails will become a part of Docket No. 2015-160-E and will be posted on our website under this docket.

Please let me know if you should require any additional information.

Sincerely,

Deborah Easterling  
Administrative Coordinator  
803-896-5133

**Subject:**

I understand that SCE&G is again asking for a rate increase. The 7th in 7 years. With their bottom line being a great amount of money in the funds, their corporate officers making large incomes and the rest of us having to pay their way, it is time to stop the additional rate increases. They are making improvements but that should already be in the heavily increased fees we pay. Supposedly the new infrastructures are going to reduce costs, therefore why should we, the consumer pay more. We all know the rates will never go down no matter what they say their reduced costs are, therefore, do not allow them to continue to burden us with higher rates.

Please help the many seniors of this state and mandate a no more increases for several years. Then only a small %. Additionally seniors should get some sort of discount presently on the now already high electric bills. Please do not approve the present requests from SCE&G.

Your consideration is appreciated and a response is requested.

Regards,  
Kate Tyminski  
Bluffton, SC
